

Solar Cable Ties

Solar Cable Ties

Leco Solar UV resistant cable ties are the ideal option for high ultraviolet environments. These ties are specifically manufactured to be used for continuous or extended exposure to outdoor use and UV light specially. UV resistant cable ties are made by incorporating stabilizers in the nylon resin, adding to the functionality that they provide.

Solar Cable Ties are produced to be considered a weather resistant grade, with enduring additional UV light being the most important added benefit.

In addition to being UV resistant, these cable ties are UL94V-2 Rated, meaning they conform to the standards set by UL in terms of standards for safety of flammability of plastic parts.

Part Number	Color	Tensile	Length	Width	Thickness	Bundle Diameter	Bag Qty	Case Qty	Case Weight
L-5-40-C	UV Black	40 LB	5.8"	0.142	0.05	1.25	100	10,000	17
L-5-40-M	UV Black	40 LB	5.8"	0.142	0.05	1.25	1,000	10,000	17
L-8-50-C	UV Black	50 LB	7.6"	0.142	0.054	2	100	10,000	30

Product Specifications

- UV Stabilized Nylon 6/6
- Weather resistant grade for Ultraviolet (UV) light
- Manufactured with 100% Nylon 6/6
- Continuous or extended exposure to outdoor use
